

# Red Suspenders Timber Frames Building Program

The Building Program is designed to give us some specific information about your requirements in a home and some of the spaces the home should include. Any information you share with us is strictly confidential.

## 1. Who will be living in the house?

Name	Age	Sex	Relationship

### 2. Occupancy

Is this a year round or seasonal home?	
Will there be children leaving in a few years?	
Will an elderly person be joining the household	
over the next few years?	
Are there pets or other domesticated animals to	
take into consideration?	

#### 3. Special Needs:

Is there anyone in the household with special needs or unusual requirements for access, temperature, noise, air quality or lighting? Is so, please list below:

Name	Age	Relationship	Special Needs

1.	How much living area? If you have an idea of approximately how many square feet of living area you will need, list it here, and explain how you arrived at this figure. (Is your figure based on the size of your present home and/or future needs.)
5.	HVAC Requirements and Preferences:
	What type of heating system do you prefer?
	What type of cooling system do you prefer?
5.	Building Site:
	If you already have selected a site, are there any unusual topographic, zoning or building covenant issues to take into consideration?
	Does the building site lend itself to a basement or walk-out? Please describe:
	Are either of these things important Design elements?

### 7. Activities and Time Spent

List the activities and time you expect to spend in each of the following rooms or areas. Also list the approximate space needed for each. Don't forget to allow for furniture, appliances, equipment and storage. Use the column ADJACENCIES to note any spatial or directional relationships; for example, a bath next to the guest bedroom, pantry near or in the kitchen.

ROOM/SPACE	ACTIVITIES/TIME	MIN	MAX	ADJACENCIES
Living room				
Great room				
Family room				
Kitchen				
Dining room				
Sunroom/Greenhouse				
Bath(s)				
Utility/Laundry				
Pantry/Storage				
Bedroom 1				
Bedroom 2				
Bedroom 3				
Guest Room				
Linen Closet				
Study/Den/Library				
Studio/Project room/Workshop				
Basement				
Garage/Shop				
Other				

8. **Home Features:** Indicate which features should be included in your home plan. Rate their importance.

ITEM	NA	LOW	MED	HIGH	COMMENTS
Living room
